## BIOGRAPHY

Canadian hip-hop pioneer **MC Shadow** is ready to reclaim his place in music history with the release of a three part video trilogy which will ultimately be made into a short film directed by **Manee Osman**. Part one kicks off with the dark and powerful track "Resurrection," where the video follows four friends who come together to pull off their biggest heist, in order to escape their lives.

Shadow first hit the charts with his group **Get Loose Crew** with their debut record in 1988. Chart success was achieved, hitting number five with "Wannabe" making them the first in the Canada to release an authentic hip hop record achieving international sales. The group shared the charts alongside industry icons **Kool Moe Dee**, **Boogie Down Productions**, **Grandmaster Flash & the Furious Five** and **ICE-T & Big Daddy Kane**. Shadow was also the first white rapper in Canada and second to the **Beastie Boys** globally.

Fast forward to 2015 and MC Shadow is back in the game! With his heated rap lyrics, Shadow is creating music unlike anything else on the music scene and bringing together different musical genres. He credits bands like **Massive Attack**, **Evanescence**, **Portishead** and the **Arctic Monkeys** as musical influences for his new sound. The singles and video trilogy will lead to a full length album release in 2016
